

Blossom's Brainiac Board

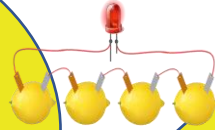

MAKE IT MONDAY

Stop-Motion Movie

With just a few objects, a smartphone and a stop-motion app, you can learn about the technology behind movie-making!

Make sure to share your movie!

Water Wednesday

Engineering involves using scientific and mathematical knowledge to design systems and machines that help solve problems or reach goals. This often leads to the development of new technologies.

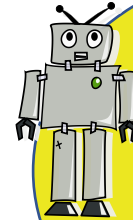

World's largest lemon battery

Fun Friday

Draw a robot invention.

What would it do?

Time for Science Tuesday

Using only a wire, a flashlight bulb and a battery, do you think you have what it takes to create your own homemade flashlight?

Take a trip Thursday

Check out these amazing Langley Research Center videos! You'll get to see incredible technology without having to leave your home.
